Cafwyd wybod am nifer o fanteision iechyd a bywyd gwylt wrth ddiogelu'r twyllwch h.y. lleihau llygredd golau. Mae posib datblygu twristiaeth hefyd ar sail safon twyllwch (ac felly diffyg llygredd) ardal. Deallwyd bod adain priffydd CSYM eisioes yn gweithio i newid goleuadau stryd, nid yn unig er mwyn arbed arian ond hefyd i leihau llygredd golau. Gofynnwyd am gefnogaeth y Cyngor Cymuned wrth ystyried ceisiadau cynllunio a gweithgareddau yn y gymuned fyddai yn effeithio ar llygredd golau a safon yr awyr dywyll. *Dani Robertson was welcomed to the meeting. She summarised the Dark Skies project. An application is about to be submitted to designate Anglesey as a national Dark Sky area and to protect the dark skies. A number of health and wildlife benefits have been identified as a result of protecting the darkness i.e. reducing light pollution. Tourism can also be developed on the basis of an area's darkness (and therefore lack of pollution). It was understood that the IACC highways section was already working to change street lighting, not only to save money but also to reduce light pollution. The Community Council's support was sought when considering planning applications and activities in the community which would affect light pollution and the standard of dark skies. Dani Robertson was thanked for attending the meeting and raising awareness of the scheme.*
