3 Virginia Crosbie AS/MP

Croesawyd yr aelod seneddol i'r cyfarfod. Nodwyd mai'r brif cwestiwn gan drigolion yr ardal oedd pa ddiweddariad oedd am ddatblygiad safle Wylfa Newydd. Cafwyd wybod gan Virginia Crosbie bod nifer o ddarnau positif i'r jig-so, nododd mai'r ysgrifennydd gwladol oedd wedi estynnu'r dyddiad penu ar gyfer y cais DCO hyd diwedd Ebrill. Cafwyd wybod bod Ms Crosbie wedi cwrdd a'r gweinidog ynni a'i bod wedi bod mewn cysylltiad dwywaith dros y penwythnos i drafod Wylfa Newydd; nododd ei bod wedi mynd drwy'r prif bwyntiau a bod cefnogaeth am y datblygiad. Dim ond rhai wythnosau sydd ar ol i lenwi'r bylchau, y prif gwestiwn fodd bynnag yw pwy fydd yn datblygu'r safle?

Cadarnhaodd Ms Crosbie ei bod wedi bod yn trafod gyda nifer o fudiadau a bod cadarnhad mai safle Wylfa Newydd oedd y gorau ym Mhrydain. Mae cefnogaeth cymunedol yn bwysig iawn wrth ddatblygu safle. Nododd Ms Crosbie bod y gweinidog wedi cadarnhau bod angeni rywbeth ddigwydd, a bod hyn bellach yn flaenoriaeth. Cadarnhaodd MS Crosbie bod y prosiect yma yn un o'r rhai, os nad y mwyaf pwysig i Ynys Mon, ac y byddai yn sicrhau swyddi o safon. Cadarnhaodd ei bod yn gwneud pob dim posib i gefnogi a hyrwyddo'r prosiect yn Llundain. Nododd siom bod Hitachi a Horizon yn tynnu allan o'r prosiect.

Gofynnwyd i'r Cyngor beth oedd eu barn am y datblygiad adweithyddion bychain ar safle Wylfa (Magnar) fel oedd wedi ei drafod ym mhapurau newydd yn ddiweddar. Mae'n debyg byddai tri chant o swyddi ar y safle. Cadarnhaodd Derek Owen nad oedd y Cyngor wedi derbyn unrhyw wybodaeth am y datblygiad ac felly nad oedd y cyngor mewn lle i drafod na rhoi barn. Nododd mai dim ond am beth amser fyddai cymuned yn cefnogi prosiect, gyda'r holl oedi a gohurio, mae'n debyg byd dy gymuned yn suro a blino disgwyl. Bu Ms Crosbie gydnabod hyn gan nodi mai'r prif rwystr ar hyn o bryd yw diffyg datblygwr. Cadarnhawyd bod angen adolygu model cyllido y llywodraeth er mwyn denu datblygwr. Nododd Ms Crosbie bod ganddi gyfarfod gyda'r gweinidogion perthnasol eto ddydd Gwener a bod datblygiad Wylfa Newydd yn flaenoriaeth er mwyn sicrhau bod posib cyrraedd nod carbon 0. Mae'r ffocws ar hyn o bryd ar ddyddiad penu'r DCO.

Bu Aled Jones gydnabod pa mor galed oedd Ms Crosbie yn gweithio ar ran Wylfa Newydd. Cynnigwyd bod y Cyngor yn cwrdd a'r ysgrifennydd gwladol i drafod ymhellach. Dim ond llywodraeth Llundain sydd a'r gallu i gymeradwyo'r prosiect, ac mae cael cefnogaeth Ms Crosbie, ein aelod lleol yn hynod bwysig. Cynnigwyd bod cyfarfod yn cael ei gynnal hefyd gyda prif fwrdd Hitachi er mwyn ceisio atgyfodi'r prosiect. Bu Ms Crosbie gytuno bod angen cyfarfod ar y cyd gyda'r gweinidog ynni ac y byddai yn gwneud ymholiadau i drefnu dyddiad cyfleus cyn gynted a phosib.

Bu Ms Crosbie gydnabod brwdfrydedd y gymuned leol tuag at y datblygiad, wrth hefyd nodi bod nifer o bobl yn gwrthwynebu datblygiadau niwclear. Nododd Ms Crosbie ei bod yn cydnabod pwysigrwydd datblygu swyddi ar yr ynys a'i bod yn gweithio gyda ac yn cefnogi nifer o gynlluniau ar draws yr ynys i hybu cyflogaeth.

Nododd Tim Turner ei fod arddeall drwy drafodaethau yng nghyfarfodydd Partneraeth Cyngorau Gogledd Mon, mai un o'r prif ddadleon ynglyn ag Wylfa Newydd oedd bod angen i'r llywodraeth canfod arian i gyfrannu tuag at y datblygiad. Yn gyson mewn trafodaethau gyda Horizon, roedd bai ar y llywodraeth am beidio cyflwyno cynllun cynladwy. Mae'n debyg os na fydd y model ariannu yn cael ei addasu ni fydd posib denu datblygwr newydd ar gyfer y prosiect. Nododd Ms Crosbie bod y llywodraeth wedi bod mewn cytundeb gyda Hitachi a llywodraeth Siapan, ond bod llywodraeth Siapan wedi tynnu yn ol, bu cydnadbod bod angen i'r llywodraeth ail-ystyried sut bydd ariannu'r fath brosiect. Nododd Ms Crosbie bod nifer o flaenoriaethau yn y llywodraeth ar hyn o bryd wrth geisio ymladd y pandemig yn ogystal a chynnal gwasanaethau dydd i ddydd.

Nodwyd pryderon na fyddai'r llywodraeth yn gallu buddsoddi mewn menter o'r fath wrth ystyried y gwariad cyfredol ar dacio'r pandemig. Cafwyd wybod bod y prif weinidog wedi ymrwmo i lefelu'r wlad a rhannu buddsoddiad. Nododd Ms Crosbie bod risg gyda buddsoddi mewn unrhyw ddatblygiad megis niwclear ond byddai datblygiad o'r fath yn sicrhau buddsoddiad yn y diwyddiant niwclear, buddsoddiad mewn swyddi, cyfrannu tuag at amcanion carbon 0, byddai hefyd yn gyfle i arwain ar y llwyfan rhyngwladol ym myd niwclear. Cydnabyddwyd bod llawer o gefnogaeth ar yr ynys tuag at ddatblygu'r safle, ond ddim ar unrhyw gost. Bydd hefyd peth effaith negyddol y sgil y datblygiad a bu gofyn bod unrhyw geblau trydan yn cael eu claddu yn hytrach na chodi peilonau ar draws ynys sydd yn ddibynnol ar dwristiaeth. Mae gwastraff niwclear hefyd yn parhau if od yn bryder mawr i bobl yr ynys.

Cafwyd ddiweddariad gan Ms Crosbie am drafodaethau sydd ar y gweill am gyflwyno cais grant er mwyn cynnal arolwg am ddefnydd posib o'r rheilffordd ar draws yr ynys. O syn llwyddianus bydd yr arolwg yn edrych ar yr ased a sut orau i'w ddefnyddio er budd y gymuned ehangach.

Gofynnwyd i Ms Crosbie sut bydd yn sicrhau bod amaethyddiaeth yr ynys yn cael ei ddiogelu a'i gefnogi. Nodwyd pwysigrwydd cynrych lleol o safon a hefyd pwysigrwydd diogelu safonau bwyd yn gyffredinol yn enwedig mewn bwydydd wedi eu mewnfario. Cadarnhaodd Ms Crosbie ei bod ar y pwyllgor amaethyddiaeth a'i bod wedi pleidleisio i gadw safonau bwyd. Nododd ei ymrwymiad bersonol i'r ynys a'i bobl.

Bu diolch i Ms Crosbie am ymuno a'r cyfarfod a bu iddi adael am 19.45.

The MP was welcomed to the meeting. It was noted that the residents' main question was what was the latest situation regarding the development of the Wylfa Newydd site. Virginia Crosbie informed the meeting that there were a number of positive pieces to the jigsaw, and noted that the Secretary of State had extended the deadline for the DCO application to the end of April. It was reported that Ms Crosbie had met with the Energy Minister and had been in contact twice over the weekend to discuss Wylfa Newydd. She noted that she had gone through the main points and that there was support for the development. There were only a few weeks left to fill in the gaps. The main question, however, was who would develop the site?

*Ms Crosbie confirmed that she had been in discussions with a number of organisations and that there was confirmation that the Wylfa Newydd site was the best in Britain. Community support was very important when developing a site. Ms Crosbie noted that the minister had confirmed that something needed to happen, and that this was now a priority. Ms Crosbie confirmed that this project was one of, if not **the**, most important project to Anglesey, and that it would secure quality jobs. She confirmed that she was doing everything possible to support and promote the project in London. She was disappointed that Hitachi and Horizon were pulling out of the project.*

The Council was asked about their opinion on the small reactor development at the Wylfa (Magnox) site, as discussed in recent newspapers. There would probably be three hundred jobs on site. Derek Owen confirmed that the Council had not received any information on the development and, therefore, the council was not in a position to discuss or comment. He noted that a community would only support a project for a while. With all the delays and postponements, it was likely that the community was very frustrated, losing heart and getting tired of waiting. Ms Crosbie acknowledged this and stated that the main barrier at present was that there was no developer. It was confirmed that a government funding model needed to be reviewed in order to attract a developer. Ms Crosbie stated that she had a meeting with the relevant ministers again on

Friday and that the Wylfa Newydd development was a priority in order to achieve the zero-carbon target. The focus was currently on the DCO deadline.

Aled Jones acknowledged how hard Ms Crosbie worked for Wylfa Newydd. It was proposed that the Council meet with the Secretary of State to discuss things further. Only Westminster could approve the project and having the support of Ms Crosbie, our local member, was extremely important. It was also proposed that a meeting be held with Hitachi's main board to try and resurrect the project. Ms Crosbie agreed that a joint meeting with the energy minister was needed and that she would make enquiries to arrange a convenient date as soon as possible.

Ms Crosbie acknowledged the local community's enthusiasm for the development, while also noting that many people opposed nuclear developments. Ms Crosbie stated that she recognised the importance of developing jobs on the island and that she was working with and supporting a number of schemes across the island to boost employment.

Tim Turner noted that he had been given to understand, through discussions at the Partnership meetings of North Anglesey Councils, that one of the main arguments about Wylfa Newydd was that the government needed to find money to contribute to the development. In discussions with Horizon, the government was consistently blamed for not delivering a sustainable scheme. It was likely that if the funding model were not modified, it would not be possible to attract a new developer for the project. Ms Crosbie noted that the government had had an agreement with Hitachi and the Japanese government, but that the Japanese government had withdrawn. There was recognition that the government needed to reconsider how to fund such a project. Ms Crosbie noted that there were a number of priorities in government at the moment, with trying to fight the pandemic as well as running day to day services.

Concerns were expressed that the government would not be able to invest in such an initiative when considering the current spending on tackling the pandemic. It was reported that the prime minister was committed to leveling the country and sharing investment. Ms Crosbie noted that there was a risk in investing in any development, such as nuclear development but that such development would secure investment in the nuclear industry, investment in jobs and contribution to zero-carbon objectives. It would also be an opportunity to lead on the international stage in the field of nuclear. It was acknowledged that there was a lot of support on the island towards developing the site, but not at all costs. There would also be some negative impact as a result of the development and any electricity cables would be required to be buried rather than having pylons built across a tourism-dependent island. Nuclear waste also remained a major concern for the island's people.

Ms Crosbie gave an update on ongoing discussions regarding submitting a grant application in order to undertake a survey of the possible use of the railway across the island. If successful, the survey would look at the asset and at how best to use it for the benefit of the wider community.

Ms Crosbie was asked how she would ensure that the island's agriculture would be protected and supported. The importance of quality local produce and the protection of food standards in general, especially in imported foods, were noted. Ms Crosbie confirmed that she was on the agriculture committee and had voted to keep food standards. She noted her personal commitment to the island and its people.

Ms Crosbie was thanked for joining the meeting and left at 19.45.

Iwan Huws gave an update as follows:

Discussions had continued with officers from IACC Maritime team. The favoured option was to place new removable bollards (approx 3) to control beach access. The maritime budget would finance purchase and installation. A keyholder partnership could then be entered into in collaboration with Llanbadrig Community Council (similar to Llanelian bollard and Bull Bay barrier partnership). It is hoped that a beach warden would be present in 2021 to help manage access to the slipway and other general beach duties.

He also noted that new signs indicating good water quality had already been installed for the next bathing season.

Agreed to contact Iwan Huws to ask if the posts would be in by Easter and thank him for his tireless support.

Byddai'r clerc yn wneud ymholiadau.

Enid Jones gave a summary of the meeting and she was thanked for also sending the information by e-mail. It was noted that some names needed to be chosen and prioritised. Elfed Jones to make enquiries and report back on costs etc.

It was noted that there was a possible project to map old names along the coast - beaches, caves, islands etc. It may be possible to work with the Heritage Centre. 6.2.3 Mannau Agored Eraill / Other Open Spaces

Cafwyd wybod bod pentwr pridd a deunyddiau eraill wedi ymddangos yng ngardd Nant y Dyfrgi ac wedi disgyn i lawr i dir y Cyngor Cymuned ac wedi difrodi'r ffens. It was reported that a pile of earth and other materials had appeared in the garden of Nant y Dyfrgi and had fallen down onto Community Council land and had damaged the fence. There had been problems at this site back in 2015 and so the relevant agencies had already been notified - Police, Natural Resources Wales, Isle of Anglesey County Council's Planning and Waste Department and Scottish Power. There were serious concerns about the security of the site.

It was noted that a planning application had been considered by the Community Council back in June 2019 and a number of questions had been raised at that time. There was no response from the Isle of Anglesey County Council's planning department at the time. Agreed that the clerk contact the department for an update and to draw their attention to this.

There was some further discussion and agreement that there was a need to wait for a response from the specialist agencies before taking any further action.

He noted that the main concern at present was the lack of a response from the Isle of Anglesey County Council on a planning application which had been submitted back in September.
